FERRARI

512 BBI

KEY FACTS

- Swiss delivery
- Ferrari Classiche certified
- Fully matching numbers

HISTORY

OUR 512 BBI

According to the Ferrari Classiche Certification awarded in 2015, chassis #46327 was finished in Rosso Ferrari 300 senza strisce nere (without the lower body part in black) over a Pelle Nera VM8500 - Stoffa 7401 interior. Delivered new through S.A.V.A.F. in Meyrin, Switzerland, in May 1983, the 512 BBI is fully matching numbers chassis, engine, gearbox, and differential.

Acquired by the current owner and client in 2015, the 512BBI has been stored with specialist Tom Fischer in Brannenburg, Germany, ever since, who took care of carrying out test drives and maintenance works all these years to keep the Ferrari in sound mechanical condition. The list of maintenance works includes but is not limited to:

Engine oil change, Brake fluid change, Clutch fluid change in November 2017

Engine oil change, Brake fluid change in November 2022

Engine oil change, Spark plugs change, Brake fluid change, Clutch fluid change in February 2024

The 512BBI presents in very original, authentic condition, still with its original brake hoses, which leads us to believe that the recorded mileage is real and hasn't been messed with. Showing only 41,900km from new, this is a great opportunity to add a truly undervalued 12-cylinder classic from Maranello, with Swiss provenance and since 2015 in unique German hands. A fresh belt change will be carried out upon delivery. The 512BBI can be inspected at our location in Munich on appointment.
