FERRARI

812 GTS

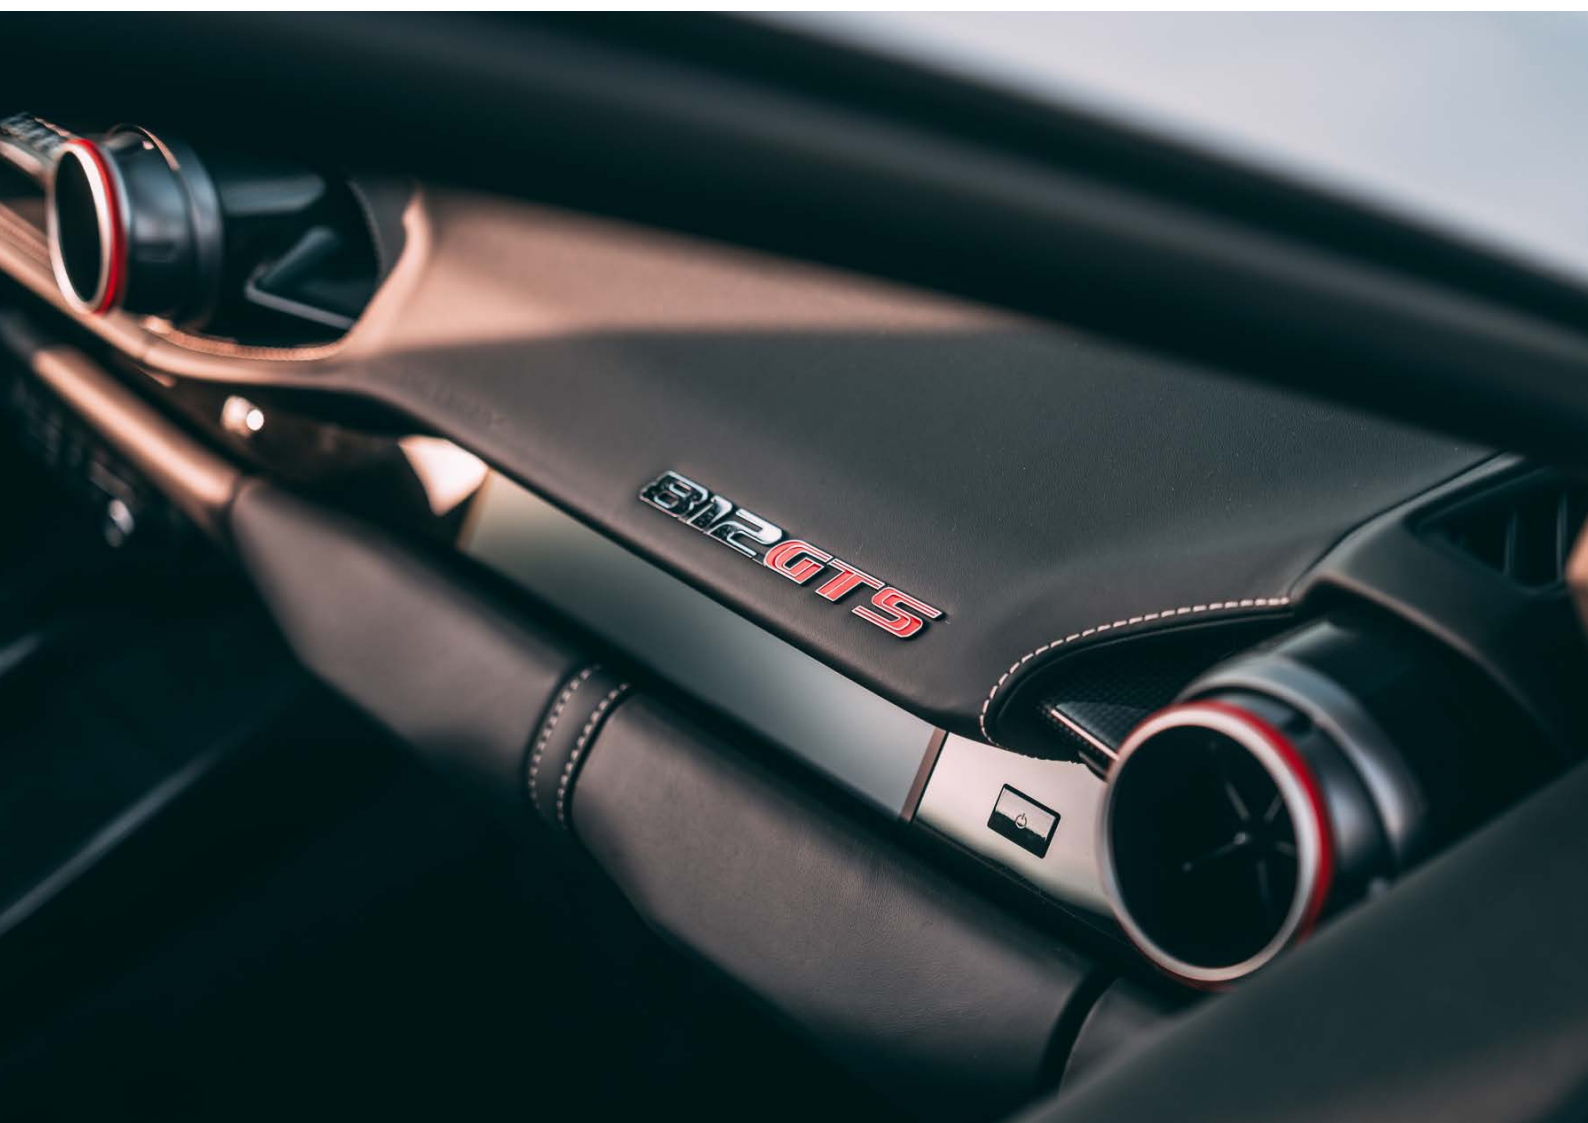

— KEY FACTS

- Only 6,000km from new
- Portuguese registration and tax status

HISTORY

The Ferrari 812 GTS is the convertible version of Ferrari's flagship front-engine V12 grand tourer. It combines strong performance with the practicality and comfort expected from a high-end sports car, offering an open-top driving experience without compromising on power or handling.

At its core is a 6.5-liter naturally aspirated V12 engine, delivering 800 horsepower and 718 Nm of torque, making it one of the most powerful production convertibles on the market. The car accelerates from 0 to 100 km/h in under 3 seconds and reaches a top speed of over 340 km/h, providing impressive performance for both everyday driving and high-speed touring.

The 812 GTS features a retractable hardtop that opens or closes in approximately 14 seconds, even while the vehicle is moving at low speeds. With the roof down, the car offers a more engaging driving experience and the distinctive sound of Ferrari's naturally aspirated V12.

Inside, the 812 GTS offers a combination of high-quality materials, advanced technology, and a driver-oriented cockpit. Despite its focus on performance, the car provides good levels of comfort for longer journeys, making it a suitable choice for both spirited driving and touring.

Overall, the Ferrari 812 GTS offers a balanced package of power, design, and practicality for those looking for an open-top sports car with the performance and prestige of a V12 Ferrari.

Our example was delivered new in Portugal to its one and only owner, curator of a huge collection of modern and classic cars. The 812 is finished in New Argento Nürburgring over a Nero leather interior with silver stitching. The full option list can be found below.

The car has only been driven 6,000km from new and is on Portuguese title, thus the Portuguese luxury taxes have been paid. The last service was carried out at Ferrari in November 2024.

Option List:

- Exterior Argento Nürburgring 101/C
- Interior Nero 8500
- Mats Nero 152
- ADAS Full Pack
